INTRODUCTION

The Georgia Department of Education requires the Division of Public Library Services to report annually on the services provided by public libraries and to account for the financial support from local, state and federal sources.

This report deals with pertinent services and finances administered by library systems. Detailed reports of the services and costs are on file at the Division.

Also included is a brief summary of services and activities at the state level. Administration of state and federal programs, library development, the Georgia Library Information Network (GLIN), and the Library for the Blind and Physically Handicapped operations augment local library system services.

STATISTICS FOR LIBRARY SYSTEMS
